

The ACT High School CPR Program Testimonials – June 2008

B.C. teachers thank paramedics for volunteering their time as CPR Instructors

"Our department found the workshop to be very useful and productive. The paramedic-instructors did an excellent job presenting the material. The program is well organized and teacher/student friendly. This is a valuable course and I feel that it will have a lasting impact on our students. Thank you BCAS and APBC for bringing this CPR training to our schools."

"A few years ago I attended another first aid workshop and left very confused. I was certified to teach first aid (or so I was told), but I did not feel at all competent enough to teach the material. Your workshop was excellent. The instructors were personable and knowledgeable - they are the ones that made the day so great!"

-- Teacher, School District No. 42

"I was very impressed with the teaching and knowledge of both instructors - these guys delivered an excellent program. I especially appreciated that the lessons were simplified to the basics, it made CPR easier to teach and more likely to be remembered and used correctly and efficiently if needed. Thank you very much!"
