

February 11, 2008

Dear Mike:

I am writing to congratulate you and your organization for the tremendous success of the ACT High School CPR Program in School District #23. Since its inception in 2005 involving two schools, the program has evolved into a far-reaching effort encompassing all high schools and one middle school.

Through this initiative, students are empowered by their teachers to provide life saving skills as well as learning responsibility and building self-esteem. The CPR program is lauded by students, teachers, parents, health professionals and the community at large as innovative and revolutionizes the way youth think about health care.

The award-winning ACT High School CPR Program would not be possible without the generosity and commitment of its partners. The program demonstrates the results that can be achieved through the power of partnerships and the benefits of community engagement and corporate social responsibility.

Once again congratulations and thank you for making our community a safer and better place to live.

Yours truly,
