Dear Mr. Blain:

During professional development days, you and Brad Fraser donated your time and expertise in CPR training for our Physical Education teachers. This invaluable instruction has been, and will continue to be, passed on to our grade 10 students.

One of the expectations of a public education is that our students become responsible and compassionate members of the community. The Advanced Coronary Treatment (ACT) Foundation program will provide them with the tools and the confidence to do just that. Providing young people with the education to help another individual in an emergency brings home the fact that we are all connected, that we can all make a positive difference.

As a provincial partner in this initiative you are demonstrating to our young students the positive results and benefits of community engagement and corporate social responsibility. This is an outstanding example of 'paying it forward'.

On behalf of the staff and students of Kelowna Secondary School, thank you.

Sincerely,

ARNAR BERNHARDSSON  
Athletic Director and Department Head
