Dear Mr. Cragg;

RE: ACT High School CPR Program

On behalf of the staff and students of the Greater Victoria School District, I would like to take this opportunity to thank you for donating your time to teach at the ACT High School CPR Teacher Training Workshop.

I am very proud to advise you that at this time this CPR Program includes all seven of our standard secondary schools as well as our alternate school.

We have heard many very positive comments from our administrators, their staff and their students, of the benefits of the CPR Program and we look forward to the continuation of this training in our schools.

Sincerely,
