

Chilliwack

We would like to send out a BIG THANK YOU to the Chilliwack Paramedics, in particular the ALS crew. We have gotten to know them very well over the past few years because of our daughter and we just wanted to let them know how much we appreciate their quick response and personal involvement when we have needed their help. Some of the paramedics have gone above and beyond with their offers of help. We so appreciate their service and knowledge of our daughters needs. She is one little girl who is very happy when the paramedics arrive!
