

the girls lift us in that stretchers
they see as a great bunch.

I took sick again after
being home for 6 or 7 weeks.

I thought I was a goner that
night, they were here within minutes
and they did everything for me
on our way to Kamloops. Made it though
Two days later a Paramedic that
took me to hospital, came up to visit
see me in the ward, and wondered
how I was and if I was doing
OK.

They are the "Best"
From Claire Gladish
Thank You Guys

July 7/08

Dear Sarah,

Yes I've wanted to thank
the Paramedic's, that took such
great care of me twice this past
year: they were here within 5
minutes as I thought it was asthma,
as I've had asthma, since a little
girl, but it was a heart attack
They tried their best with me on our
way to Kamloops from Logan Lake BC
then had to go to Kelowna, for
tests they made me feel so comfortable
and talked and had some laughs
all the way there and back again

Had to fly to Vancouver to
~~St Pauls Hospital~~
everyone was so nice I wonder how
