

Dear Sarah:-

Since 2004 I've had approx. 12-14 grand mal seizures and brain surgery and yes I still have some brains left and I'm still on top of the grass thanks to the WONDERFUL paramedic crew we have here in Agassiz. They not only look after me when I need them they look after my wife also.

Since the last seizure Oct 2007 I only drink 4 glasses of liquid per day and my electrolyte level is now good.

I have known some of the paramedics for approx 30-35 yrs. Living in a small town is wonderful!!

Yours truly Don Sciotti
