

100 Mile House, July 18/08

To: Ms. Sarah Taylor

Regarding the paramedics we may be a little late to respond, but we personally need to acknowledge our appreciation for what these dear people have done for us here in 100 Mile House. When my husband was in need of an Ambulance, which occurred several times during the last two years. We felt relieved as it appeared promptly even so in the dark of very early morning. It arrived with well trained people, very kind and helpful, but as a stretcher became essential each time it proved to be a difficult situation. They tried to bring him down the stairway but to no avail. It was decided to bring him out through the patio door in the back of our home, which was not an easy task especially in winter as my husband just plowed a small trail which now and then became icy, at this point causing the paramedics to attach Icecleats to their boots, but with their extra effort that part went well but unfortunately the Ambulance got stuck at the end of the driveway backing up, another Ambulance brought my husband to the Hospital and a Towtruck called for. It all ended well because we were given knowledgeable, loving, kind and helpful people and when I apologized for all the trouble it caused them, Oh, they said cheerfully: "it's just part of the job". Well, in our opinion the paramedics in this town surely did what needed to be done and went far beyond their duty and we are so very grateful and thank God for you and may He bless every one of you always!

*With greetings and
Thanks*

Tron & Beth Steina
